

General Purchase Terms

1. Scope and validity

1.1. These General Purchase Terms (hereinafter "**GPT**") regulate the legal relationships between the Supplier and the company Orange Slovensko, a.s. with registered office at Metodova 8, 821 08 Bratislava, ID No: 35 697 270, VAT No.: SK 2020310578 registered in the Commercial Register of the District Court Bratislava I, section Sa, file No.: 1142 / B (hereinafter "**ORANGE**") in connection with the supply of goods and services.

1.2. These GPT take precedence over any provisions and general terms and conditions agreed upon in the past as well as over possible general conditions of the Supplier (including license conditions of the Supplier). For the avoidance of doubts, taking over of the Deliverables by the company ORANGE does not mean the acceptance of the general terms and conditions of the Supplier by the company ORANGE.

1.3. In case there is a written contract concluded for the Deliverable between the Supplier and the company ORANGE, such contract and its provisions take precedence over the GPT, as well as the standard terms and conditions of the Supplier and the provisions of these GPT shall be used as subsidiary. The above mentioned is fully applied also to the written Confidentiality Agreement concluded between the Supplier and the company ORANGE.

2. Definitions

"**Deliverables**" mean goods and/or services provided by the Supplier, listed in the Purchase Order issued by the company ORANGE.

"**Contractual Price**" means the price specified in Article 10 of these GPT. The Contractual Price does not include the value added tax (VAT) applicable pursuant to the applicable legislation of the Slovak Republic.

"**Place of Delivery**" and "**Date of Delivery**" mean the place and date specified in the Purchase Order as the place and date of delivery of the Deliverables.

"**Offer**" means the Supplier's response to the requirements of the company ORANGE contained in the Request for Offer.

"**Purchase Order**" means the order of the company ORANGE for the delivery of the Deliverables.

"**Request for Offer**" means a formal call for submitting an Offer sent by the company ORANGE to the Supplier.

"**Specification**" means a description of the requirements for the Deliverables contained in the Request for Offer and Purchase Order.

"**Supplier**" means the supplier of the Deliverables.

3. Request for Offer and Offer

3.1. By sending the Request for Offer the company ORANGE requests the Supplier to submit its Offer, i.e. the conditions for the delivery of Deliverables specified in the Request for Offer. The Supplier is obliged to send the Offer to the company ORANGE without delay, and the Offer shall include, in particular, **(i)** the data of the Supplier's contact person; **(ii)** a detailed Specification of the Deliverables, **(iii)** Place and Date of Delivery of the Deliverables **(iv)** Contractual Price. At the request of the company ORANGE, the Supplier shall provide consultations to the Offer or free training within the scope determined by the company ORANGE. In the case of a requirement of the company ORANGE, the Supplier shall complement and/or modify and/or extend its Offer so that it reflects the additional requirements of the company ORANGE. For the avoidance of any doubt, if the Supplier in accordance with the previous sentence submits several Offers to the company ORANGE for identical Deliverables, the Offer referred to in the Purchase Order and enclosed to the Purchase Order shall be the decisive and binding Offer (i.e. such Offer is the final Offer). The costs of the preparation of the Offer, possible consultations, modification/complementing/extension of the Offer, samples, technical specifications, as well as the delivery of the samples by the Supplier shall be borne by the Supplier in full, regardless of whether a Purchase Order of the company ORANGE is linked to the concerned Offer. The Supplier shall submit its Offer in writing by a letter or e-mail. If the Offer (including the relevant documentation) prepared by the Supplier may be considered a work under the Copyright Act, in accordance with the relevant provisions of the Copyright Act the Supplier grants a consent to the company ORANGE to use the Offer (including the relevant documentation) for the purpose of the scope of business of the company ORANGE as well as for internal purposes. The company ORANGE shall be entitled also to reproduce, process and adapt the Offer (including the relevant documentation) and freely modify it and adapt according to its needs itself as well as via third parties. Such a license is granted as non-exclusive, for the duration of the copyright in an unlimited range and free of charge, with the right of the company ORANGE to grant a sublicense in its scope. The Supplier also acknowledges that such use of the Offer is not in breach of the Confidentiality Agreement concluded between the company ORANGE and the Supplier and gives its explicit consent to such use of the Offer.

3.2. The Supplier will explicitly specify in its Offer to what extent the Offer is different from the requirements contained in the Request for Offer of the company ORANGE.

3.3. During the entire period of cooperation with the company ORANGE the Supplier is obliged to notify the company ORANGE without delay of any potential risks and inappropriate nature of the requirements or instructions of the company ORANGE related to the performance under these GPT. The provisions of § 551 of the Commercial Code shall apply adequately.

4. Ordering procedure

4.1. In the event that the company ORANGE accepts the Supplier's Offer the company ORANGE is entitled to send a Purchase Order to the Supplier. Sending of a Purchase Order is only an explicit right, not an obligation of the company ORANGE and the company ORANGE is free to decide whether it uses this right or not. However, in case the Purchase Order has been sent, the Supplier is obliged to confirm the Purchase Order and deliver the Deliverables in accordance with the conditions specified in these GPT. If the Supplier starts to execute any work with reference to the Offer before the delivery of the Purchase Order and if eventually the Deliverables are not ordered, the costs of such work done shall be borne entirely by the Supplier.

4.2. In the event that the company ORANGE decides not to send the Purchase Order to the Supplier, the company ORANGE is not obliged to give reasons for its decision.

4.3. In case of differences between the content of the Purchase Order and these GPT, the regulation agreed in the Purchase Order takes precedence over the regulation agreed in the GPT.

4.4. The Purchase Order is valid, provided it was sent in a written form (email). By the Supplier's confirmation of the Purchase Order, the Purchase Order is considered to be legally binding for the Supplier, and the Supplier undertakes to confirm the Purchase Order no later than within two (2) working days of its dispatch by the company ORANGE. The final Offer of the Supplier is enclosed to the Purchase Order in accordance with section 3.1. of these GPT, to which the Purchase Order refers.

4.5. The Purchase Order is considered as accepted by the Supplier's signature and subsequent sending to the contact person in the company ORANGE. Also the confirmation by electronic mail from the contact person of the Supplier sent to the contact person in the company ORANGE is considered an equivalent form of the Purchase Order confirmation. By the confirmation of the Purchase Order the Supplier confirms that it has acquainted itself with the GPT and accepts them.

5. Delivery

5.1. The Supplier is obliged to deliver the Deliverables **(i)** on the Date of Delivery and to the Place of Delivery; **(ii)** in the quantity and quality specified in the Purchase Order; **(iii)** in compliance with the Specification and these GPT. The Deliverables must be suitable for the intended use and purpose pursued by the company ORANGE, and at the same time they must be free of any defects (see also article 6 of these GPT).

5.2. The subject of these GPT is the commitment of the Supplier to ensure that the content of the Deliverables is in full compliance with the provisions of legal regulations in force in the Slovak Republic, the EU and the provisions of these GPT. For this purpose the Supplier undertakes to ensure that **(i)** the use of software, hardware, and technical or other procedures, by means of which the creation and operation of the agreed Deliverables is provided, and **(ii)** the operation of Deliverables itself is not in contradiction to the provisions of these GPT and the legislation in force, and that it does not interfere illegally with the rights or interests of other persons protected by the law.

5.3. Partial performance and delivery of the Deliverables is permitted only on the basis of a prior written consent of the company ORANGE or a previous requirement of the company

ORANGE. The company ORANGE reserves the right to cancel the Purchase Order in part or fully if the Supplier delivers to the company ORANGE a partial performance without its written consent. In case of a delay of the Supplier with a partial supply of the Deliverables, the company ORANGE shall have the right to a contractual penalty pursuant to point 6.3 of these GPT for each day of the delay of the Supplier after the deadline for the partial performance. Any costs associated with such cancelled Purchase Order shall be fully borne by the Supplier.

5.4. The Supplier shall inform the company ORANGE about the progress of the work associated with the delivery of the Deliverables, whenever so requested by the company ORANGE. If it is assumed that the Deliverables cannot be delivered in due time, the Supplier shall immediately inform the company ORANGE and agree on another binding Date of Delivery, unless the company ORANGE agrees with the delivery of the Deliverables even after the agreed Date of Delivery. In the event that the company ORANGE is not interested in the performance after the Date of Delivery, the resulting situation is considered a delay of the Supplier. The agreement on a new substitute Date of Delivery shall not affect any rights of the company ORANGE resulting from the delay of the Supplier with a proper and timely delivery of the Deliverables to the company ORANGE. The company ORANGE is not obliged to grant a new extended delivery term to the Supplier and in the case of such delay of the Supplier it shall have the right to fully withdraw from the Purchase Order, including the partial fulfilment.

5.5. The Supplier undertakes to inform the company ORANGE about all technical and/or other innovations of the Deliverables that may become available to the Date of Delivery and make changes of the Deliverables which are necessary or advantageous for the company ORANGE free of charge, if so requested by the company ORANGE.

5.6. The Deliverables shall be deemed handed over on the date of the signature of an acceptance protocol by the company ORANGE (hereinafter referred to as the „**Acceptance Protocol** "), unless it is specified otherwise in the Purchase Order.

5.7. The Acceptance Protocol of the Supplier shall state the number and date of the Purchase Order and it shall include a description of the Deliverables. The company ORANGE shall sign the Acceptance Protocol provided that the Deliverables have been delivered free of defects and in full compliance with the provisions of the Request for Offer / Offer / Purchase Order and these GPT. For the avoidance of any doubt, in the case of inconsistencies between the particular documents relating to the delivery of the Deliverables, the regulation in the particular documents shall be decisive in the following order: (1.) Purchase Order, (2) final Offer in accordance with paragraph 3.1. of these GPT, (3) GPT, (4) Request for Offer, where the regulation in the Offer, GPT and Request for Offer is subsidiary (supportive) to the regulation in the Purchase Order; unless the Supplier and the company ORANGE have expressly agreed otherwise.

5.8. At the acceptance of the Deliverables the Supplier shall provide recommendations for tuning the performance of the systems on which the Deliverables are installed if asked to do so by the company ORANGE.

5.9. The Supplier shall be entitled to use a third person (sub-contractor) for the provision of the Deliverables (or a part thereof)

only with a prior written consent of the company ORANGE. Such subcontractors shall meet high standards of the company ORANGE enshrined in these GPT and sign a written confidentiality commitment pursuant to Article 17 of these GPT. In its relationships with such third parties, the Supplier shall always act in its own name and on its own account. The Supplier shall be responsible for all acts or omissions of third parties mentioned above, especially for delays and defects to the extent as if it acted alone.

5.10. The Supplier shall provide the agreed Deliverables to the company ORANGE through people who have necessary skills for their provision.

5.11. If the company ORANGE is not satisfied with the timeliness, completeness or quality of the supply and provision of the Deliverables by any person on behalf of the Supplier, it shall be entitled to request a replacement of such a person by a more qualified individual, while the Supplier is obliged to comply with this request within 5 working days after the requirement to replace the person has been sent.

5.12. Unless agreed in the Purchase Order otherwise, the delivery term DDP Incoterms 2010 to the Place of Delivery shall apply for the purpose of delivery of the Deliverables.

6. Breach of obligations

6.1. For the purposes of these GPT only Deliverables supplied in compliance with these GPT are considered delivered properly and in time. The Deliverables shall be considered defective, if not corresponding to the Specification included in the Request for Offer and/or Offer and/or Purchase Order and/or the provisions of these GPT, or if the Deliverables have legal defects.

6.2. The Place of Delivery and Date of Delivery specified in the Purchase Order are binding. The Date of Delivery shall be considered as met, if the Supplier has delivered the Deliverable to the contact person in the company ORANGE before the agreed Date of Delivery in accordance with these GPT. The Supplier is in delay (i) if it fails to deliver the Deliverables to the Place of Delivery on the Date of Delivery, (ii) if it has not delivered the Deliverables properly, without any defects and (iii) if it has failed to deliver the Deliverables in accordance with the provisions of these GPT.

6.3. If the Supplier is in delay, the company ORANGE may ask for an immediate fulfilment of the Purchase Order or it may cancel the Purchase Order, and this shall not affect any of its legal rights. The Supplier shall be responsible for all damages incurred by the company ORANGE due to the failure to deliver the Deliverables properly and in time. If the Deliverables have not been handed over by the Supplier in time, i.e. by the Date of Delivery and properly in compliance with these GPT, the company ORANGE shall be entitled to a contractual penalty in the amount of one percent (1%) of the Purchase Order value for each even started day of the delay and the entitlement of the company ORANGE to reimbursement of the damage shall not be affected by that. The payment of the contractual penalty shall not relieve the Supplier from the obligation to comply with these GPT and it shall not be set off against the entitlement of the company ORANGE to a reimbursement of the damage.

6.4. In case of any breach of the Supplier's obligations under the Article 17. of GPT (Confidentiality Agreement) ORANGE shall be entitled to a contractual penalty of EUR 33,000 from the

Supplier for any and such each breach. The payment of contractual penalty shall not relieve the Supplier of its duty to secrecy. The right of ORANGE for damage compensation remains unaffected.

6.5. In case of a breach of the Supplier's obligation under Article 18. of these GPT (Use of logo, business name or trademark of ORANGE) the company ORANGE shall be entitled to a contractual fine in the amount of EUR 30,000 for each individual violation.

6.6. In case of breach of any of the Supplier's obligation under the document SOH and FP 3 (as referred by point 22.1 of these GPT) by the Supplier, the company ORANGE is entitled to claim contractual penalty from the Supplier in the amount of EUR 5,000 for each and every breach of Supplier's obligation under the document SOH and FP 3 by the Supplier.

6.7. If the Supplier fails to provide a security Official Fix for Vulnerabilities in accordance with the document Information Security Annex (ISA) as referred in Article 24 of these GPT within an agreed period, the company ORANGE is entitled to claim contractual penalty from the Supplier in the amount of 20,000,-EUR for each violation of this obligation by the Supplier.

6.8. In case of breach of any of the Supplier's obligation (in the particular Article referred to as "Processor") under the Article 23. of these GPT (Agreement on Authorisation of Processor to Personal Data Processing) by the Supplier, the company ORANGE is entitled to claim contractual penalty from the Supplier in the amount of EUR 50,000 for each and every breach of Supplier's obligations under Article 23 of these GPT (Agreement on Authorisation of Processor to Personal Data Processing).

6.9. Contractual penalty shall be payable within 30 days upon receipt of contractual penalty request by the Supplier. Any penalty paid pursuant to these GPT shall be without prejudice to damages, which is to be reimbursed by the Supplier to the company ORANGE, i. e. ORANGE is entitled to claim the Supplier in any case for damages in full extent (including sanctions, fines and penalties imposed to ORANGE by the competent authorities).

6.10. The company ORANGE is entitled anytime unilaterally set off due or undue contractual penalty already claimed from the Supplier with its existing or future debt to the Supplier following whatever contractual relation between ORANGE and the Supplier.

6.11. If the company ORANGE is in delay with the payment of an invoice according to these GPT the Supplier shall be entitled to a late-payment interest in the amount of 0.04% of the outstanding amount for each even started day of the delay, however maximum up to the amount of 20% of the invoiced amount.

7. Acceptance and taking over of the Deliverables

7.1. After receiving the Deliverables the company ORANGE shall examine and test them within a reasonable period and shall immediately inform the Supplier whether it accepts them (signing of the Acceptance Protocol), or refuses them.

7.2. If the company ORANGE finds that any of the Deliverables is defective, it may provide a reasonable period to the Supplier to remedy and correct the defect, but not more than 14 days. The Supplier is obliged to repair and remove the defect in the determined time at its own expense.

7.3. If the Supplier fails to repair or remove the defect within the prescribed period, or if the company ORANGE in accordance with paragraph 7.2 of these GPT does not provide an alternative period to the Supplier, the company ORANGE shall be entitled at its own discretion, in particular:

- a. to insist on the fulfilment of the Purchase Order and claim for damages and contractual penalty as per paragraph 6.3. of these GPT (if the Supplier fails to do so, the letter c) below shall be applied);
- b. to require a replacement of the defective Deliverables by new ones within a new time limit set by the company ORANGE (if the Supplier fails to do so, the letter c) below shall be applied);
- c. to refuse to accept the defective part or defective parts of the Deliverables, withdraw from the Purchase Order or a part of it, and to claim a contractual penalty in accordance with paragraph 6.3 of these GPT and a reimbursement of the damage.

7.4. The company ORANGE has also the right at the risk and expense of the Supplier to correct and/or remove the defects of the Deliverables itself, or replenish the Deliverables, or to entrust a third party of their choice with this task at the risk and expense of the Supplier. In this case the Supplier is obliged to provide the company ORANGE and/or a third party with all necessary assistance, in particular, to deliver to the company ORANGE all documents needed for this purpose.

7.5. In the event, that only a part of the delivered Deliverables is defective, the company ORANGE may decide whether it takes over only those parts, which are free of defects. As regards the defective Deliverables the Supplier shall proceed in accordance with paragraphs 7.2 to 7.4 points of these GPT.

7.6. In case of a cancellation of the Purchase Order by the company ORANGE due to the defects of the Deliverables, any Supplier's expense for the production and delivery of Deliverables shall be borne by the Supplier. The company ORANGE is obliged to pay only the Contractual Price of the Deliverables duly delivered, the delivery of which is confirmed by the signature of the Acceptance Protocol in accordance with paragraph 5.6. of the GPT (i.e. even a part of the Contractual Price).

7.7. The Supplier undertakes to hand over to the company ORANGE, together with the Deliverables all the documentation relating to the Deliverables or belonging to the Deliverables, free of charge. For the purposes of these GPT the documentation shall mean, in particular, but not exclusively, the documentation of the SW package including the license terms, technical, installation, operation, and user guide, a description of the proposed solution, specification for the environment, an author's guide/operation manual including guarantee certificates, technical specification, procedure for removing defects, acceptance protocol, protocol/book of the executed tests, training materials.

Regardless of any limitations pursuant to the relevant provisions relating to intellectual property rights and confidentiality obligation on the basis of these GPT, the company ORANGE shall always be entitled to publish and/or provide the documentation drawn up by the Supplier in connection with the fulfilment of the Purchase Order, in particular, but not exclusively, the documentation specified in paragraph 7.7 of this article of the GPT to any third

party at its sole discretion, free of charge. The Supplier hereby declares and undertakes that the disclosure or provision of the documentation does not violate any patent rights or other intellectual property rights of a third party. If any part of the documentation is considered to be an intellectual property, by confirming the Purchase Order the Supplier grants to the company ORANGE an unrestricted right to use, copy, create back-up copies, disclose, modify, and sub-license the concerned intellectual property right to third parties, and to assign such right to third parties, for which the Supplier grants its consent by the Purchase Order confirmation. Any relevant fee or remuneration are included in the Contractual Price in accordance with these GPT. In accordance with this paragraph of GPT the supplier grants to the company ORANGE all rights under this Article of the GPT **(i)** in an unlimited territorial and **(ii)** in an unlimited material scope, and **(iii)** for the time of duration of property rights to the work, pursuant to section 32 of the Copyright Act (independently of the validity and effectiveness of the Licence Agreement and/or the Purchase Order).

The Supplier undertakes to draw up in writing (including by email) an Offer to carry out the changes or a new Offer for Deliverables within 5 working days after having received the mentioned request. In the response, the Supplier undertakes to inform the company ORANGE about whether the proposed changes are possible and what effects they will have on the Purchase Order (especially on the Date of Delivery and the Contractual Price). Consequently the company ORANGE shall have the right to send to the Supplier a Purchase Order with reference to such modified Offer, while other provisions of the GPT shall be applied adequately. The Supplier shall also be entitled to charge the company ORANGE only for the Contractual Price for the Deliverables taking into account such more favourable terms and the company ORANGE shall pay only the Contractual Price for Deliverables, taking into account these more favourable conditions. In the case where the Supplier issues an invoice for the company ORANGE not taking into account these more favourable conditions already at the time of their agreement/existence – this shall establish unjust enrichment of the Supplier and the company ORANGE shall be entitled to claim it.

The maturity of this newly issued invoice of 60 days shall start to run from the date of its delivery to the company ORANGE.

In case the Supplier is not registered for taxes in the territory of Slovakia (i.e. it is not a Slovak tax resident), and if the withholding tax is levied based on a convention or legal regulation of the source state, the company ORANGE shall pay to the Supplier all amounts reduced by this tax payable on relevant payments and the company ORANGE as the tax payer shall be responsible for paying this tax and obtaining from its tax authorities the official certificate evidencing the payment of such tax. In the case the double taxation convention provides a reduced tax rate, the Supplier and the company ORANGE undertake to furnish without undue delay and, if necessary in advance of any payment, all documentation necessary for the application of such convention. If the Supplier wishes to ask the company ORANGE to use this reduced tax rate, after the Order confirmation the Supplier is obliged to provide to the company ORANGE a tax residence certificate without undue delay. Thereby the Supplier also confirms that the payments paid by the company ORANGE according to these GPT were made in favour of the Supplier as the actual owner (beneficial owner) for the purposes of the application of the benefits of the tax convention. If the tax residence certificate of the Supplier is not available for the company ORANGE at the time of payment for the Deliverables, the local (not reduced) withholding tax rate will be applied to all payments. The tax residence certificate of the Supplier shall be renewed annually in case the Purchase Order is valid and effective for a period longer than one year.
